# SUMMARY

- 6 Editorial. Our commitment: To research for everyone
- 8 Universidad del Rosario, at the service of the country
- 14 More high-impact science
- 18 Regarding phenomena such as COVID-19, scientific research is recognized as a primary activity, not a secondary one

## 1. Inclusive research

### 24 Humanity on trial Our contributions to the pandemic

- 46 Subjects of special protection
- 50 The narrative of "*corridos paracos*," the sung story of the conflict
- 54 The unexpected consequences of peace
- 58 Women in Military Forces: Between stereotypes and unresolved questions
- 62 The journalists facing the challenge of pain

## 2. For an ecologically sustainable environment

- 68 Anatomy of the Escazú Agreement, a tool to protect the environment
- 74 Legal mining also contributes to deforestation
- 78 Social stability, key in animal cooperation
- 82 A protest beyond the light

## 3. Thinking about matters on the national agenda

- 88 Colombia seeks how to 'get the most out of' the Orange Economy
- 92 Inequality in Colombia does not give in
- 96 The vote, a right dressed as a duty
- 102 *ObservaJEP*: The academy's contribution to understanding the Special Jurisdiction for Peace
- 106 Narco-aesthetics, the superficial layer of a complex problem
- 110 Corruption: The voter's dilemma

## 4. Joining disciplines together to improve the quality of life

- 116 Colombian scientists contribute to control one of the most powerful bacteria in hospitals
- 120 Publicly subsidized private schools, a model to evaluate and improve
- 124 The legislation to regulate electronic cigarettes does not wait
- 130 A stab in the heart puts the Colombian health system to the test
- 134 Protectionism paralyzes the country's foreign trade
- 138 *Death's Trampoline*: A violent inclusion path to the State

## 5. Digital innovation

- 144 *Wikiakua' ipa*, knitting ancestral roots in Wikipedia
- 148 The future of measuring children's learning would be in electromagnetic sensors
- 152 Health students learn to work in inter-professional teams with an innovative methodology
- 156 With a virtual reality video game, anatomy can be learned in the Universidad del Rosario

## 6. Leadership and social innovation

- 162 Colombian companies increase management reports to be more competitive
- 166 Improvisation, a key tool in business organizations
- 170 Mechanism proposal to reactivate the agro-industry and dignify farmers
- 174 In China and Latin America, university research networks contribute to innovation

## 7. Efforts which transcend research

- 180 Beatriz Londoño, committed to defend human rights
- 184 Research that restored 23 centuries of history
- 188 "I just want to be Samuel...to inspire and have an impact."
