

Referencing and Citation Quiz

Academic Integrity – Understanding Plagiarism

Think you understand referencing and citations? Try this quiz to find out.

<http://www.sussex.ac.uk/s3/?id=151>

The screenshot shows a web browser window displaying the University of Sussex Skills Hub. The browser's address bar shows the URL www.sussex.ac.uk/s3/?id=151. The Skills Hub page has a purple header with the 'US UNIVERSITY OF SUSSEX' logo and navigation links: 'Students', 'Staff', 'Schools & services', 'Sussex Direct', 'Study Direct', and 'SPLASH'. Below the header, a breadcrumb trail reads: 'Students > Information & support resources > Skills Hub Home > Assessments (archived) > Referencing > Citing and referencing quiz'. The main content area is titled 'Citing and referencing quiz' and includes a description: 'This activity will test your knowledge of correct referencing. The three examples of student essays all make use of the original text below. You need to decide which referencing features (e.g. citation, intended paragraphs, quotation marks, reference) the students should use in order to have referenced properly. The sections of the student's essay that are the same as the source are highlighted in grey.' A sample text is provided: 'A sample of Beethoven, when played to laboratory mice for 15 minutes, had a calming effect. The mice exhibited lower blood pressure and resting heart rate than normal. Meanwhile, a group of mice exposed to music by the pop group Prodigy became highly agitated and exhibited higher blood pressure.' Below this, a reference is cited: 'From: Hedgecoe, T. (2007) 'The Effect of Popular and Classical Music on Small Mammals', *Journal of Music Studies*, 6 (3), pp. 37-48.' The left sidebar contains a 'Home' section with links to 'Presenting and participating in class', 'Reading and research', 'Writing and assessment', and 'Referencing and academic integrity'. The 'Referencing and academic integrity' section is expanded, showing 'Referencing' and 'Citing and referencing' links. The bottom of the page shows a Windows taskbar with the date and time: '02:24 p.m. 22/02/2017'.
